

## **Windhager UK Training Courses - 2011**

As industry leaders in the supply of biomass appliances Windhager UK Ltd recognise the need to offer quality training courses to companies working in the biomass industry.

High demand for these courses is expected and early booking to guarantee places is recommended.

### **HETAS - Competent Persons Courses**

**H003 - Heating Engineers Course (Dry Systems)** – This three day course includes the HETAS two Day awareness course that is recognised by the industry and The Health and Safety Executive as the standard for which competency is to be judged for the installation of non boiler dry solid fuel appliances. The third day of the course will incorporate a practical assessment which covers the special requirements of appliance choice, commissioning and fault diagnosis.

- Training manuals
- Assessment fees
- Lunch and refreshments
- £560.00 + vat

### **HETAS - Competent Persons Courses**

**H004 - Heating Engineers Course (Wet Systems)** – This four day course is recognised by the industry and The Health and Safety Executive as the standard for which competency is to be judged for the installation of wet and dry solid fuel appliances. The fourth day will incorporate a practical assessment which covers the special requirements of heating systems, appliance choice for solid fuel heating appliances, commissioning and fault diagnosis.

- Training manuals
- Assessment fees
- Lunch and refreshments
- £760.00 + vat

**H005 - Biomass Training Course** – This four day course is considered an essential for any company installing automatic biomass appliances. The course covers the complexity of biomass heating appliances and covers background information to enable the engineer to professionally carry out feasibility studies regarding fuel types, storage, design and installation. The course has both practical and theoretical content. Successful completion of this course will allow a HETAS registered engineer to extend their registration categories to include mechanically fed biomass appliances.

**Minimum Entry Requirements** – Delegates must have completed the four day

HETAS Engineers Course (Wet Systems) and completed a current Part G course for unvented hot water systems. (proof will be required)

- Training manuals
- Assessment fees
- Lunch and refreshments
- £695.00 + vat

**Windhager Product Overview** – This one day event is generally free of charge and aimed at installers, architects and specifiers. The content is non technical and covers an overview of the Windhager range of products and their applications

Alternative dates can be arranged for individual companies on request – lunch is provided.

**How To Book Your Course** – Simply complete the below Delegate Booking form and return to Windhager (email, fax or post). Please ensure that you include with your returned booking form the full delegate details, the course reference number and your deposit.

Once we have received your deposit we will reserve a place on the course and then raise a vat invoice – all invoices **MUST** be paid in full prior to attending the course. Please note that a completed booking form and deposit is required for each delegate.
