HOTEL INDUSTRY

## ROBUST & DURABLE.

Combustion chamber made of heavy cast steel, coated with refractory concrete, guarantees a long service life.

## SUPERIOR BANDWIDTH.

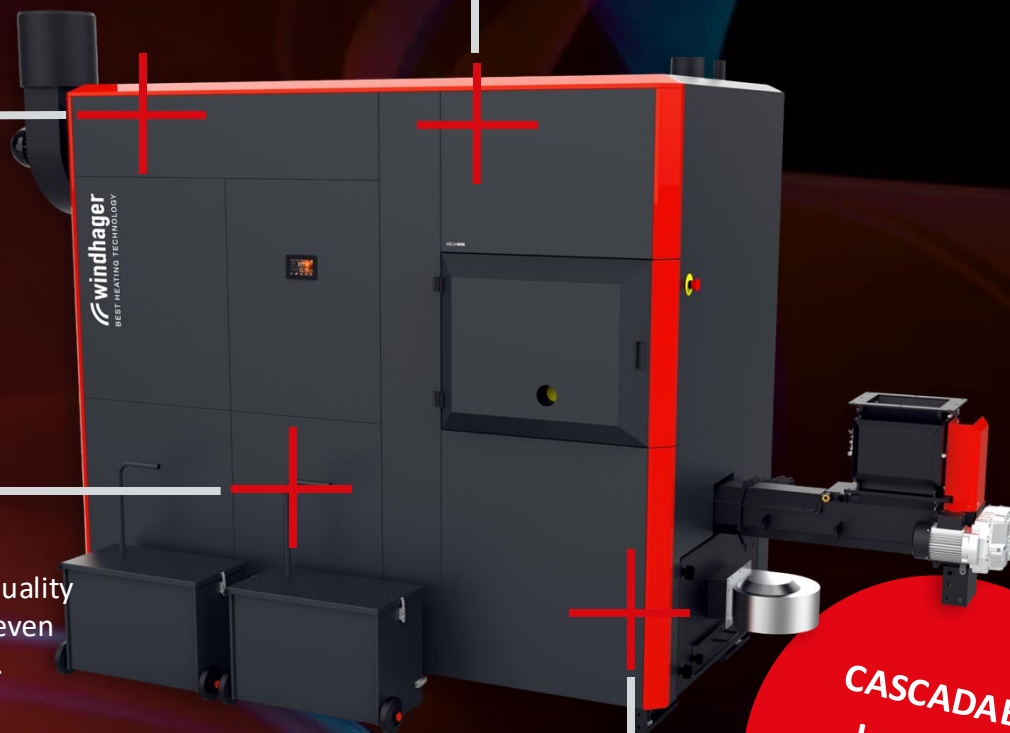

Movable grate system made of high-quality cast iron, which enables combustion even with increased humidity of up to 60%.

## ENERGY SAVING- CHAMPION.

New generation engines with twice the fuel consumption and half the energy consumption.

## FLEXIBLE FEEDING SYSTEMS.

Automatic removal solutions from smaller pellet stores to large wood chip bunkers.

**CASCADABLE:**  
Large-scale  
plants  
possible!

# MEGAWIN DELUXE

STRONG PERFORMANCE  
FOR HIGH DEMANDS

- Heat exchanger with 4 double tubes & built-in retarders ensures higher efficiency.
- Variable power - adjustable according to site conditions.
- Combustion parameters can be selected precisely for the type of fuel.
- Reinforced screw suitable for fuel supply of wood chips up to type G50.
