

**WINDHAGER –  
BEST HEATPUMP  
TECHNOLOGY**

## THE START OF A NEW ERA OF HEAT.

Windhager is forming a strong alliance with Heliotherm:

**100 % reliable.**

**100 % made in Austria.**

**100 % Best Heatpump Technology.**

Experience groundbreaking next-generation heatpump technology – whisper quiet (<50 dB(A)), highly efficient (SCOP>6) and powered by free energy from the elements of air, earth and water.

# AeroWIN DOMESTIC

## AIR HEAT PUMPS - MONOBLOC

**HELIO THERM**

powered by **WINDHAGER**

2,6 to 19 kW

- SCOP up to 5.7
- Also perfect for modernization due to flow temperatures of up to 72 °C
- Unrivalled quiet due to sound decoupling and special insulation - 44 dB(A)
- Natural refrigerant R290
- Active cooling as standard
- Corrosion resistant & high quality made of stainless steel, glass and aluminum
- PV ready

# AeroWIN DOMESTIC

**windhagernxt**  
BEST HEATPUMP TECHNOLOGY

## AIR HEAT PUMPS - MONOBLOC

- SCOP 4.9
- Quiet due to sound isolation and special insulation
- Active cooling as standard
- Corrosion-resistant & high-quality made of stainless steel and anodized aluminum
- PV ready

7 to 27 kW

**HELIO THERM**

powered by **WINDHAGER**

# TerraWIN DOMESTIC

## BRINE HEAT PUMPS - OUTDOOR

3 to 15 kW

**HELIO THERM**

powered by **WINDHAGER**

- SCOP up to 6.3
- Highly efficient thanks to innovative modulation technology
- Also perfect for modernization due to flow temperatures of up to 72 °C
- Compact and particularly light at only 125 kg
- PV-Ready
- Optional: Active & passive cooling

# TerraWIN DOMESTIC

## BRINE HEAT PUMPS - INDOOR

3.3 to 20 kW

**HELIO THERM**

powered by **WINDHAGER**

- SCOP up to 5.6
- PV-Ready
- Low space requirement in the central heating system due to compact design
- Safe and virtually maintenance-free operation thanks to use of innovative scroll compressors
- Optional: Active and passive cooling

# AeroWIN COMMERCIAL

**windhagernxt**  
BEST HEATPUMP TECHNOLOGY

## AIR HEAT PUMPS - MONOBLOC

- SCOP up to 5.8
- Quiet and low-vibration operation due to noise-optimized design – 51 dB(A)
- Holistic building control through integrated KNX connection
- PV-Ready
- Active cooling for rooms with optimal temperatures all year round

13.3 to 58 kW

# AeroWIN COMMERCIAL

**windhagernxt**  
BEST HEATPUMP TECHNOLOGY

## AIR HEAT PUMPS - SPLIT

13.3 to 58 kW

**HELIO THERM**

powered by **WINDHAGER**

- SCOP up to 5.2
- Unrivalled quiet and low-vibration operation due to noise-optimized design – 42 dB(A)
- Holistic building control through integrated KNX connection
- PV-Ready
- Optional: Active cooling for rooms at the optimum temperature all year round

# TerraWIN COMMERCIAL

## BRINE HEAT PUMPS - INDOOR

11.1 to 93 kW

powered by **WINDHAGER**

- SCOP 6.0
- Highly efficient thanks to innovative modulation technology
- Holistic building control through integrated KNX connection
- PV-Ready
- Optional: Active & passive cooling for rooms at the optimum temperature all year round
